

Case Study

Blue Arrow

Brief

To provide office furniture for the Company's 52,000 sq ft headquarters in four separate departments.

Client

Blue Arrow HQ

Site

Luton

Product Range

Glade Contract

When recruitment specialist Blue Arrow decided to centralise its regional offices into one Head Quarter building based in Luton, they chose Eurotek's Glade Contract without hesitation.

Blue Arrow's Human Facilities Manager Eileen Gwozdicki said there were a number of reasons why Eurotek products were chosen. "Eurotek played

a big part in space planning and it was evident that the flexibility of their furniture was tailor made for our large open plan work areas. The result is that we now have excellent internal communications between departments, plenty of open space and the ability to accommodate an increase in staffing levels if necessary.

The new 52,000 sq ft corporate

headquarters was furnished with 400 Glade Contract workstations for Blue Arrow's Finance, IT, Operations and Human Resources divisions.

In addition, Eurotek have furnished three separate break out areas with trumpet based circular tables as well as providing conference and meeting room tables for one of Blue Arrow's staff training rooms.

Winning factors

Very flexible furniture

Dedicated CAD planning support to achieve best layout for each area
