

Hornsey School for Girls

Case Study

Budget Saving Solution

Enhancing Learning Environments

Listening to Customers' requirements

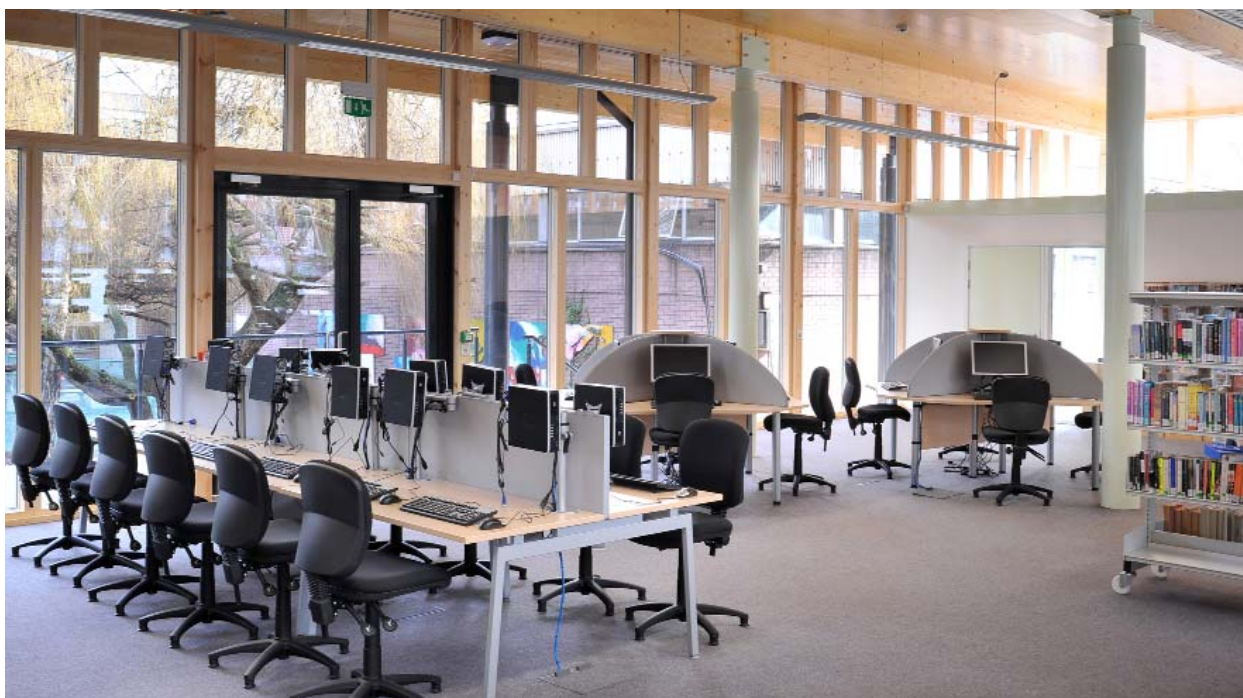

Pupils returning from the summer break at Hornsey School for Girls will be able to enjoy a brand new ICT suite, media room as well as an improved woodwork lab.

This was followed by a one day exhibition aimed at finalising the decision as to what type of products would be required to be included in the tender.

As part of the government's Building Schools for the Future initiative, Harringey Council invited all 6 OGC contracted manufacturers to discuss the requirements of 7 local schools, including Hornsey, with the contractors.

Once the tender was submitted, all 6 potential suppliers were asked to supply specific sample furniture for a week's evaluation by the Council, Project Manager and the Schools.

Brand new library with acclaim benching and quad pod

A requirement of the tender was for each supplier to provide 4 options for every product submitted - Economy, Bronze, Silver and Gold options.

tables in the centre finished in a light grey top and silver frame. Each station measuring 1400mm wide by 700mm deep seats 2 students and following careful CAD planning, Eurotek was able to design a layout accommodating 32 pupils and a teacher's desk.

After much evaluation, Eurotek were awarded the Economy, Bronze and Gold options.

The ICT suite at Hornsey school was furnished with Eurotek's Acclaim bench system configured in line against the walls and 8 technical drawing

The media room was also furnished with the Acclaim bench system finished in Warm Maple and accommodates 26 students.

Strong frame structure

Library shelving

In both rooms, the chairs were FSC certified Pyrus task chairs provided by Eurotek's partner Pledge.

Eurotek were able to complete phase 1 of Harringey Council's requirements to furnish areas of 6 specific schools before staff and students returned in September.

Phase 2, included a brand new library at Hornsey furnished with the Acclaim bench, a couple of Quad stations and several more rooms in all 6 schools plus a brand new school, is to follow.

Throughout this project, Eurotek worked with Quality Surveyors Potter Raper Partnership and the Project Management firm Mace.
