

# Case Study

## West Sussex County Council - Education Partnership Services

### Brief

To provide workstations, storage and seating for the newly refurbished Education Dept office in record time

### Client

*West Sussex County Council*

### Site

*Chichester*

### Product Range

*Glade*

Having been housed in temporary accommodation for much longer than planned, when a new office suite became available, furniture was needed speedily. Eurotek came to the rescue with planning to installation completed in 10 working days.

The department is now housed in comfortable newly refurbished offices fitted out with Eurotek's Glade desking & storage range in Saxon Oak

together with task seating & screens in Corinth fabric, all supplied under a new contract with the County.

Move co-ordinator, Rob Bruce, was extremely pleased with the service level from Eurotek. So much so that when the department's new Worthing offices also needed to be refurbished, he had no hesitation in calling Eurotek again and entrust them with that

contract as well. This time the finish was in the County's corporate grey with all worktop edges finished with a radiused lipping incorporating a blue stripe.

### Winning factors

*Ability to work within very short time constraints*

*Excellent support and communication to achieve best solution*
